and its subsidiaries  
Review report and interim financial information  
For the three-month and nine-month periods ended  
30 September 2021

## **Independent Auditor's Report on Review of Interim Financial Information**

To the Shareholders of Delta Electronics (Thailand) Public Company Limited

I have reviewed the accompanying consolidated statement of financial position of Delta Electronics (Thailand) Public Company Limited and its subsidiaries as at 30 September 2021, the related consolidated statements of comprehensive income for the three-month and nine-month periods then ended, and the related consolidated statements of changes in shareholders' equity and cash flows for the nine-month period then ended, as well as the condensed notes to the interim consolidated financial statements. I have also reviewed the separate financial information of Delta Electronics (Thailand) Public Company Limited for the same periods (collectively "interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34 *Interim Financial Reporting*. My responsibility is to express a conclusion on this interim financial information based on my review.

### **Scope of review**

I conducted my review in accordance with Thai Standard on Review Engagements 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

### **Conclusion**

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34 *Interim Financial Reporting*.

The accompanying notes are an integral part of interim financial statements.

**Delta Electronics (Thailand) Public Company Limited and its subsidiaries**

**Notes to interim consolidated financial statements**

**For the three-month and nine-month periods ended 30 September 2021**

**1. General information**

**1.1 Corporate information**

Delta Electronics (Thailand) Public Company Limited (“the Company”) is a public company incorporated and domiciled in Thailand. Its parent company is Delta Electronics Inc., which is incorporated in Taiwan. The registered office of the Company is at 714 Moo 4, Tambon Prakasa, Amphur Muangsamutprakarn, Samutprakarn.

The Group is principally engaged in the manufacture and distribution of electronic products, together with related research and development.

**1.2 Coronavirus disease 2019 Pandemic**

The Coronavirus disease 2019 pandemic is adversely impacting most businesses and industries. This situation may bring uncertainties and have an impact on the environment in which the group operates. The Group’s management has continuously monitored ongoing developments and assessed the financial impact in respect of the valuation of assets, provisions and contingent liabilities, and has used estimates and judgement in respect of various issues as the situation has evolved.

**1.3 Basis of preparation of interim financial statements**

These interim financial statements are prepared in accordance with Thai Accounting Standard No. 34 Interim Financial Reporting, with the Company choosing to present condensed interim financial statements. However, the Company has presented the statements of financial position, comprehensive income, changes in shareholders' equity, and cash flows in the same format as that used for the annual financial statements.

The interim financial statements are intended to provide information additional to that included in the latest annual financial statements. Accordingly, they focus on new activities, events and circumstances so as not to duplicate information previously reported. These interim financial statements should therefore be read in conjunction with the latest annual financial statements.

The interim financial statements in Thai language are the official statutory financial statements of the Company. The interim financial statements in English language have been translated from the Thai language interim financial statements.

#### **1.4 Basis of consolidation**

These consolidated financial statements include the financial statements of Delta Electronics (Thailand) Public Company Limited (“the Company”) and its subsidiaries (“the subsidiaries”) (collectively as “the Group”) and have been prepared on the same basis as that applied for the consolidated financial statements for the year ended 31 December 2020. There were no changes in the composition of the group during the current period.

#### **1.5 New financial reporting standards**

##### **a) Financial reporting standards that became effective in the current period**

During the period, the Group has adopted the revised financial reporting standards and interpretations which are effective for fiscal years beginning on or after 1 January 2021. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards.

The adoption of these financial reporting standards does not have any significant impact on the Group’s financial statements.

##### **b) Financial reporting standards that will become effective for fiscal years beginning on or after 1 January 2022**

The Federation of Accounting Professions issued a number of revised financial reporting standards, which are effective for fiscal years beginning on or after 1 January 2022. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and, for some standards, providing temporary reliefs or temporary exemptions for users.

The management of the Group believes that adoption of these amendments will not have any significant impact on the Group’s financial statements.

#### **1.6 Significant accounting policies**

The interim financial statements are prepared by using the same accounting policies and methods of computation as were used for the financial statements for the year ended 31 December 2020.

## 2. Related party transactions

During the periods, the Group had significant business transactions with related parties. Such transactions, which are summarised below, arose in the ordinary course of business and were concluded on commercial terms and bases agreed upon between the Company and those related parties.
