The Stock Exchange of Thailand

Delta Electronics (Thailand) PCL., known as "DELTA," would like to address the recent fluctuations in our stock price. The company attributes these fluctuations to various market conditions and external factors beyond our control. Consequently, we are unable to provide comments on this matter.

However, we want to assure our shareholders and the public that the company's long-term business strategy remains unaffected by the stock market fluctuations. In regard to an erroneous report in the media, we want to emphasize that our current free float stands at 22.35%, surpassing the Stock Exchange of Thailand's (SET) required minimum of 15%.

The company's financial fundamentals remain strong, evident from our robust year-on-year revenue and profitability growth in the first quarter of this year.
